

How much are you *actually* overpaying?

The number you've never been shown.

One percent doesn't sound like much. Until you compound it for thirty years — then it quietly subtracts roughly a fifth of your wealth. That's not opinion; it's arithmetic. A flat \$100 per month buys the same fiduciary advice, the same portfolio manage-

ment, the same tax-aware planning — without the silent escalator. Scan the code on the reverse, or run the numbers at youarepayingtoomuch.com. There's no email required, no spoilers, and no obligation. Just the math.

Your money, two paths.

\$100/MO FLAT VS. 1.00% AUM • BOTH AT 9.0% ANNUAL GR

\$

\$100

“

Fees are one of the few things in investing that are entirely within your control.

— THE WALL STREET JOURNAL · ON THE MATH OF LONG-TERM INVESTING

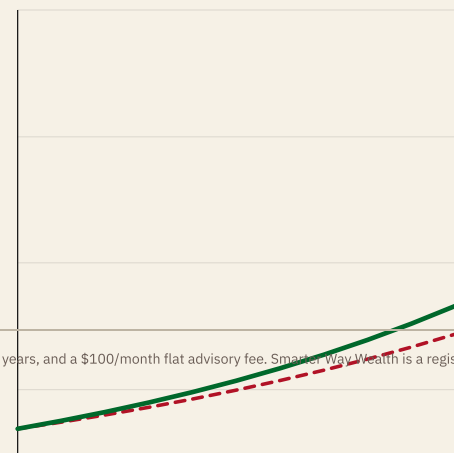

Educational only. Hypothetical results are not investment advice. Actual results vary. Example assumes a \$1,000,000 portfolio, 9% annual growth, a 1% asset-based fee, 20 years, and a \$100/month flat advisory fee. Smarter Way Wealth is a registered investment adviser. See ADV at adviserinfo.sec.gov.

— A NOTE FROM THE FOUNDER

The percentage no longer matches the work.

CFA CHARTERHOLDER · CFP® PRACTITIONER · CONNECTICUT

I built Smarter Way Wealth because the percentage-fee model no longer matches the work. You shouldn't pay 5x more just because you saved 5x more.

A flat \$100/month retainer covers the same fiduciary planning, portfolio management,

tax-aware rebalancing, and real-estate analysis — without the silent escalator.

If your number on the reverse is bigger than you expected, let's have a fifteen-minute chat.

1%

doesn't sound like much.

Until you compound it for 30 years — then it quietly subtracts roughly a fifth of your wealth. That's arithmetic.

\$100

flat per month.

Same fiduciary advice. Same portfolio management. Same tax-aware planning. None of the AUM creep.

\$0

extra to find out.

The calculator is free. The 15-minute audit is free. You see your actual fee gap before you ever sign anything.

Educational only. Hypothetical results are not investment advice. Actual results vary.
